DOC-26 | CONTROLLED SOURCE SYNCHRONIZATION

Cross-reference-only revision notice

v1.0-RC2 | 11 September 2026 | SOURCE-OF-TRUTH SYNCHRONIZATION ONLY

Control	Selected value
Revision	v1.0-RC1 -> **v1.0-RC2**
Semantic change	**NONE.** This revision changes source version/count/path references only.
Wave-2 semantic authorities	DOC-07 RC2 | DOC-08 RC2 | DOC-15 RC8 | DOC-16 RC5
Canonical HTTP companion	contracts/http/BLOG-DOC-15_openapi_v1.0-RC8.yaml
OpenAPI SHA-256	bf577a463b4c5d8fdceddc2087f53216426ef88d67d8e1a0d22ccf819751cd00
RC8 estate	113 operations | 86 paths | 221 schemas/helpers | 1,311 resolved internal refs | 0 unresolved refs 12 AUTH | 2 PUBLIC/PREVIEW | 63 SITE | 36 GLOBAL

DOCUMENT-SPECIFIC SYNCHRONIZATION

• Public visual identity semantics are unchanged. Upstream transport/discovery references are synchronized to DOC-15 v1.0-RC8 and DOC-16 v1.0-RC5.

• No site token, brand direction, asset rule, visual runtime boundary, Page ID or public component semantic is changed.

SUPERSESSION AND HISTORICAL CLASSIFICATION

The inherited body that follows is retained unchanged in substantive page content. Any inherited non-owning reference to DOC-15 RC7/RC6, the old 112/85/217/1,297 estate, 11 AUTH operations, DOC-16 RC4, or the RC7 YAML filename is classified **HISTORICAL / SUPERSEDED REFERENCE** and is not normative in this revision. All other inherited owned semantics remain in force.

Occurrence ledger: RC7/old HTTP: inherited printed pages 1, 52; RC4: inherited printed pages 1, 52.

IMPLEMENTATION IMPACT: NONE. The accepted NAKSHATRA_MASTER_WAVE2_HANDOFF application/database/API behavior is unchanged by this document synchronization.

BLOG-DOC-26

14-Site Visual Identity, Design Token & Site-Local UI Authority

One public visual authority with fourteen independent site chapters. Defines each site's visual language, exact token baseline and site-local UI rules without becoming a page-by-page mockup specification.

SITE-01	SITE-11	SITE-07	SITE-04	SITE-06	SITE-03	SITE-05
SITE-10	SITE-12	SITE-08	SITE-09	SITE-14	SITE-02	SITE-13

Document control	Value
Status	REVIEW CANDIDATE - built against project-owner-designated finalized/frozen BLOG-DOC-01 through BLOG-DOC-25; freeze after DOC-26 approval.
Version	v1.0-RC1
Date	10 September 2026
Upstream baseline	DOC-01..14; DOC-15 RC7 + OpenAPI; DOC-16 RC4; DOC-17 RC2; DOC-18 RC2; DOC-19 RC2; DOC-20 RC1; DOC-21 RC1; DOC-22 RC1; DOC-23 RC2; DOC-24 RC3; DOC-25 RC2.
Primary authority	Visual identity, site-local design tokens, logo/favicon direction, palettes, typography, imagery/motifs, public shell/component styling principles, responsive/accessibility visual rules for 14 public site applications.
Explicit non-authority	Does not change Page IDs, routes, data/API fields, content states, permissions, SiteContext, SEO/search behavior, media semantics, workers/cache, security, performance, deployment or Central Admin visual design.
Downstream	PDF-27 consumes these identities/tokens to create responsive wireframes and high-fidelity page mockups; it may not silently alter DOC-26 visual identity decisions.

CORE RULE	Shared platform semantics do not imply shared public presentation. Every site owns its own visual implementation. No site may import another site's CSS, tokens, logo, assets, Header/Footer, cards, buttons or theme runtime.

ASSET TRUTH	Where exact logo/favicon artwork is not already established upstream, DOC-26 labels the direction as a design recommendation. It does not pretend an approved vector asset already exists.

Appendix B	14-site token digest
Appendix C	One-page developer execution reference

ONE SOURCE OF TRUTH	PDF-26 owns public visual identity and site-local visual rules. DOC-12 owns semantic component contracts, DOC-13 owns public data, DOC-14/23 own application/import boundaries, DOC-25 owns Central Admin visuals, and PDF-27 owns final responsive page mockups.

1. Purpose, Authority and Visual Conflict Rules

BLOG-DOC-26 translates the frozen 14-frontend architecture into fourteen deliberate public brands. It defines the design language and exact local token baseline that each independent Next.js site application must implement. It does not define final page compositions or mockups; those belong to PDF-27.

Conflict type	Required handling
Needs new Page/API/data field	Reject visual proposal or reopen owning upstream document; DOC-26 cannot invent it.
Would share visual runtime across sites	Reject. Copying a token schema is allowed; importing another site's runtime CSS/component/theme is not.
Would change semantic order	Reject. Responsive layout may reflow but must preserve authoritative PageData/component order.
Logo/favicon not established	Mark as DOC-26 recommendation; do not claim existing approval.
Brand direction conflicts with accessibility	Keep brand primitive as identity input but create a documented accessible site-local semantic application/fallback.
Prompt domain spelling conflicts with frozen registry	Frozen DOC-08/09 Site Registry wins unless a controlled upstream domain revision is approved.

2. Frozen Upstream Public-Visual Invariants

Invariant	Locked visual consequence
VIS26-INV-01	Exactly 14 initial public applications remain independent; future sites are configuration/scaffold-driven, not a hard lifetime ceiling.
VIS26-INV-02	Exactly 14 public Page IDs/route families remain. DOC-26 cannot create a new landing-page type, calculator, tool or generic page builder.
VIS26-INV-03	DOC-12 semantic components and accessibility meanings remain; visual styling may vary by site.
VIS26-INV-04	DOC-13 PageData array order is authoritative. CSS/grid reflow cannot reshuffle semantic content.
VIS26-INV-05	Header/Footer/navigation/card/button/theme/assets remain site-local. No site-to-site runtime imports or shared mutable site visual state.
VIS26-INV-06	The public UI never broadens SiteContext or fetches all-site data for client filtering.
VIS26-INV-07	Search/Preview/404/410 indexability/security behavior is not changed by styling.
VIS26-INV-08	Central Admin brand/visual system from DOC-25 is not a public-site template.
VIS26-INV-09	WCAG 2.2 AA, keyboard usability, visible focus, reduced motion and non-color-only communication apply to all 14 sites.
VIS26-INV-10	PDF-27 may change composition within this identity but may not replace approved DOC-26 palette/font/token/brand character without controlled revision.

3. Canonical Site Registry and Chapter Mapping

Visual chapter	Frozen site key	Canonical presentation domain	Normalized host key
1	SITE-01	WhatsYourRashi.in	whatsyourrashi.in
2	SITE-11	JaniyePanchang.com	janiyepanchang.com
3	SITE-07	AstroToday360.com	astrotoday360.com

Visual chapter	Frozen site key	Canonical presentation domain	Normalized host key
4	SITE-04	ZodiacDaily.in	zodiacdaily.in
5	SITE-06	MyHoroscope360.com	myhoroscope360.com
6	SITE-03	DailyRashi360.com	dailyrashi360.com
7	SITE-05	DailyHoroscope360.com	dailyhoroscope360.com
8	SITE-10	ApkaNakshatra.com	apkanakshatra.com
9	SITE-12	RashiRemedies.com	rashiremedies.com
10	SITE-08	ApkiKundli.com	apkikundli.com
11	SITE-09	MatchYourKundli.com	matchyourkundli.com
12	SITE-14	VastuShastra360.in	vastushastra360.in
13	SITE-02	ApkiRashi.com	apkirashi.com
14	SITE-13	ApkaPandit.in	apkapandit.in

AUD26-DOM-01	The prompt listed apnakshatra.com for chapter 8. Frozen DOC-08/DOC-09 authority is SITE-10 ApkaNakshatra.com with normalized host apkanakshatra.com. DOC-26 therefore uses the frozen canonical identity and does not silently create/change a domain. If apnakshatra.com is intended as a real domain change, DOC-08/09 and downstream registries require controlled revision.

The visual chapter order above follows the order requested for DOC-26, not the numerical SITE-key order. Chapter order is documentation presentation only and does not change tenant identity.

4. Family Resemblance vs Independent Identity Doctrine

- Family resemblance comes from craftsmanship: respectful astrology/ritual treatment, high-quality typography, clear hierarchy, accessible interaction, restrained celestial/traditional motifs and disciplined editorial presentation.
- Family resemblance does NOT require one palette, one font, one card radius, one logo construction, one Header, one Footer or one Home layout.
- Similar subject sites are intentionally differentiated by audience posture: beginner discovery vs technical interpretation; forecast energy vs forecast literacy; chart mechanics vs matching; ritual procedure vs calendrical timing.
- The established Cosmic Navy / Antique Gold / Warm Ivory brand DNA may appear strongly where semantically appropriate, especially ApkaNakshatra, but it is not forced on every site.
- Coincidental reuse of a value or font does not authorize a shared runtime dependency. The source CSS/token file remains physically inside each site application.

5. Shared Semantics vs Site-Local Visual Ownership

Artifact	Semantic source	Visual owner	Cross-site runtime sharing
Page IDs / PageData	DOC-05/13	Each site renders locally	Shared contract/type semantics only
Header/Footer semantic slots	DOC-12/13	Each site shell	PROHIBITED visual runtime
Article Card semantics	DOC-12	Each site component	PROHIBITED visual runtime
Buttons/forms used by public site	Existing page actions	Each site	PROHIBITED visual runtime
Design token names	DOC-26 convention	Each site value file	Name schema may match; values/files remain local
Logo/favicon/assets	DOC-26 direction / approved asset files	Each site	PROHIBITED cross-site asset import
Central Admin UI	DOC-25	Admin app only	PROHIBITED in public sites

```
apps/sites/<site>/src/site/
  styles/tokens.css      # this site values only
  styles/global.css      # this site visual defaults
```

```
shell/header/*         # this site Header
shell/footer/*         # this site Footer
shell/navigation/*     # this site nav presentation
components/*           # reusable only within this site
assets/*               # approved site-owned assets only
```

6. Canonical Site-Local Token Schema

All fourteen sites use the same token naming vocabulary so developers and PDF-27 can map decisions consistently, but every value is stored locally in that site application. This naming convention is not a shared visual package.

Required token	Meaning
--color-brand-primary	Dominant site identity/action color.
--color-brand-secondary	Secondary brand/support color.
--color-accent	Small emphasis/decorative highlight.
--color-background	Primary page canvas.
--color-surface	Cards/forms/article surfaces.
--color-text	Primary readable text.
--color-text-muted	Secondary metadata text; contrast must be verified.
--color-border	Neutral/site-tinted borders and rules.
--color-focus	Keyboard focus ring.
--font-heading	Site-local heading font stack.
--font-body	Site-local body/UI font stack.
--radius-card	Default editorial card radius.
--radius-button	Default public button/control radius.
--space-section	Major vertical section rhythm.
--shadow-card	Default card elevation, if any.

UTILITY COLORS	Public form success/error/warning states may use accessible functional utility colors where a site palette cannot communicate state safely. Those utilities are functional, not new brand primitives, and must always be paired with text/icon/programmatic meaning.

7. Common Responsive and Accessibility Non-Negotiables

- All pages preserve DOC-11 route/action/state meaning at narrow widths; responsive styling cannot hide a required control or change a public/private outcome.
- Grid changes preserve DOC-13 array order. CSS order, masonry or visual rearrangement must not make later content appear semantically earlier.
- Keyboard focus is visible at all times on interactive elements; minimum focus ring is 2px with visible offset/contrast against the immediate surface.
- Color is never the only carrier of state, selection, error, warning, taxonomy or sign identity. Text/icon/shape or programmatic labels accompany it.
- Touch-oriented narrow layouts target at least 44x44 CSS px for primary interactive controls where space allows without breaking semantics.
- Animation is optional decoration. prefers-reduced-motion removes nonessential movement and must never prevent access to information.
- Headings keep logical DOM order. Visual type scale may vary by site but may not fake heading structure with non-semantic styling.
- Body text targets 16px minimum on public pages; Devanagari-heavy body copy should normally render at 17-18px or equivalent optical size for legibility.

- Images/illustrations remain supplementary to text semantics; decorative motifs are aria-hidden. Meaningful media follows existing alt/caption contracts.
- QA fixture widths from DOC-21 remain test evidence points, not DOC-26 universal product breakpoints. PDF-27 may lock page-specific responsive breakpoints while preserving these principles.

CHAPTER 8

WhatsYourRashi.in | SITE-01

Friendly Rashi discovery with a curious, welcoming cosmic voice

Identity thesis

The domain asks a direct personal-discovery question, so the identity should feel inviting rather than esoteric. Use a modern cosmic editorial style that helps a first-time reader explore Rashi knowledge without looking childish or like a generic horoscope app.

Dimension	Site-local direction
Personality	Curious, approachable, optimistic, clear, contemporary.
Visual character	Rounded editorial cards, deep blue anchors, warm marigold highlights and small constellation/question cues.
Audience posture	Discovery-first readers who may be new to astrology; visual language should reduce intimidation.
Density	Comfortable, medium-light density with generous article breathing room.
Shape language	Rounded rectangles, circular sign markers, soft orbit arcs; avoid excessive pills.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended wordmark with a compact zodiac-orbit/question-mark monogram. The symbol may suggest discovery without turning into a quiz icon.
Favicon	Simple circular orbit with one star/question notch; legible at 16px.
Avoid	Do not use all 12 zodiac glyphs in the favicon or a cartoon crystal ball.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#1F2A5A	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#5868B6	Secondary headings, active navigation cues, charts/illustration support.
Accent	#F2B84B	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#F8F6FF	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#171B32	Long-form body and primary labels.
Muted text	#5D6478	Metadata and secondary labels; must remain AA at intended size.
Border	#D9DCEF	Dividers, card edges and input borders.
Focus ring	#4C5DB3	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Fraunces", "Noto Serif Devanagari", Georgia, serif
Body stack	"Nunito Sans", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Conversational but editorial; sentence case, short explanatory decks.
Article measure	68ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Bright editorial astrology illustrations, sign portraits and clean celestial diagrams with human warmth; avoid stock neon galaxies.
- Small dotted constellations, orbit paths and one recurring question-arc device.
- Use marigold accent sparingly around discovery prompts and section markers, not as a full-page gradient.

CHAPTER 8

WhatsYourRashi.in | SITE-01

Friendly Rashi discovery with a curious, welcoming cosmic voice

Shell, navigation and component language

Surface	Visual rule
Header	Open masthead with wordmark left/center, text-first navigation and restrained search entry. A small zodiac-orbit motif may support branding.
Footer	Friendly, structured multi-column footer on primary navy with concise recovery/navigation links and no decorative overload.
Navigation	Plain-language text labels, medium weight, generous hit area; active item may use marigold underline or orbit dot.
Article cards	Soft-radius cards, 4:3 media preference, clear sign/category label, headline-first hierarchy and subtle navy shadow.
Buttons	Primary navy fill; secondary white with navy border; accent marigold reserved for small emphasis, not default CTA fill.
Forms/search	Large readable search field, visible label/placeholder distinction, navy focus ring and explicit error text.
Article/content	Comfortable measure, visible hierarchy, gentle section spacing, celestial dividers only at major transitions; block order remains authoritative.

Responsive principles

- Narrow view collapses navigation into one accessible menu; no horizontal zodiac carousel is required.
- Card grids reduce columns without reordering PageData; featured content stays first.
- Article width becomes edge-comfortable with 20px minimum side gutters and no decorative element covering text.

Accessibility treatment

- Primary text and actions use dark navy on light surfaces; marigold is not used alone for small text.
- Focus indicator uses #4C5DB3 with 2px minimum ring and visible offset.
- Sign icons/glyphs are supplementary; labels remain textual.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#1F2A5A
--color-brand-secondary	#5868B6

Canonical site-local token	RC1 value
--color-accent	#F2B84B
--color-background	#F8F6FF
--color-surface	#FFFFFF
--color-text	#171B32
--color-text-muted	#5D6478
--color-border	#D9DCEF
--color-focus	#4C5DB3
--font-heading	"Fraunces", "Noto Serif Devanagari", Georgia, serif
--font-body	"Nunito Sans", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	18px
--radius-button	12px
--space-section	72px wide / 52px narrow
--shadow-card	0 10px 28px rgba(31,42,90,.10)

Visual do / don't

DO	DO NOT
Use approachable celestial cues.	Do not make it a childish zodiac quiz.
Keep discovery copy visually simple.	Do not use neon space gradients as the core identity.
Let cards feel friendly and tactile.	Do not imply a personalized calculator that does not exist.

FUNCTION BOUNDARY	The discovery visual language must not imply a new Rashi calculator, onboarding quiz or personalization engine. It styles only frozen public pages/data.

CHAPTER 9

JaniyePanchang.com | SITE-11

Calendrical precision, sacred timing and trustworthy traditional clarity

Identity thesis

Panchang implies time, calendar structure and ritual precision. The identity should combine traditional Indian calendrical warmth with rigorous information design, using parchment, vermilion and turmeric-gold rather than mystical galaxy styling.

Dimension	Site-local direction
Personality	Precise, traditional, authoritative, orderly, respectful.
Visual character	Calendar-grid discipline, parchment surfaces, vermilion anchors and small solar/lunar geometry.
Audience posture	Readers seeking Panchang and auspicious-timing knowledge; visual hierarchy must support reference reading.
Density	Medium-dense; compact metadata and tables, calmer long-form article spacing.
Shape language	8px radius, fine rules, grid-aligned blocks, circular sun/moon marks used decoratively.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended wordmark with a disciplined sun-disc plus calendar/tithi notch; geometric rather than ornate.
Favicon	Single sun-disc or crescent-in-grid mark with strong silhouette.
Avoid	Do not use a complex Panchang calendar page illustration at favicon size.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#27324D	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#8B3F32	Secondary headings, active navigation cues, charts/illustration support.
Accent	#D7A43A	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF8E8	Default page canvas.
Surface	#FFFDF7	Cards, article body surfaces, forms and overlays.
Primary text	#2A241C	Long-form body and primary labels.
Muted text	#6B6256	Metadata and secondary labels; must remain AA at intended size.
Border	#E3D2B4	Dividers, card edges and input borders.
Focus ring	#7A332B	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Tiro Devanagari Hindi", "Noto Serif Devanagari", Georgia, serif
Body stack	"Mukta", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Measured, reference-like, culturally respectful; avoid sensational urgency.
Article measure	70ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Indian sky/calendar diagrams, sun/moon phases, festival objects and architectural details photographed with warm natural light.
- Fine calendrical grid, concentric solar rings, small crescent markers and restrained manuscript rules.
- Vermilion/gold keylines may mark sections; never turn the page into a temple poster.

CHAPTER 9

JaniyePanchang.com | SITE-11

Calendrical precision, sacred timing and trustworthy traditional clarity

Shell, navigation and component language

Surface	Visual rule
Header	Structured masthead with strong baseline grid, compact search and fine gold rule. Decorative calendar cues must not masquerade as live date widgets.
Footer	Deep indigo footer with warm ivory text, fine gold separators and restrained traditional motif.
Navigation	Compact reference-style navigation; active state uses vermilion text plus underline, never icon-only.
Article cards	Low-radius information cards, 3:2 imagery or diagram-led visuals, clear date/topic metadata and crisp borders.
Buttons	Primary deep indigo; secondary parchment/indigo; vermilion reserved for urgent/destructive-looking cues only when semantically appropriate.
Forms/search	Squared inputs, explicit labels, high-contrast focus ring, compact help text and no decorative glyph inside required fields.
Article/content	Reference-first typography, strong H2/H3 ladder, side notes/callouts styled like annotated almanac boxes without introducing new data.

Responsive principles

- Reference tables must scroll only when unavoidable; key labels remain visible and no semantic columns are dropped without alternative presentation.
- Header compresses to a clear menu and search; decorative grid density reduces on narrow screens.
- Article body maintains readable Devanagari/Latin line length and 18px minimum mobile body size when Devanagari is used.

Accessibility treatment

- Gold is decorative/accent only; body text uses #2A241C or #27324D.
- Focus #7A332B is visible on parchment and sacred-white surfaces.
- Sun/moon/tithi icons never replace textual labels or time/date semantics.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#27324D

Canonical site-local token	RC1 value
--color-brand-secondary	#8B3F32
--color-accent	#D7A43A
--color-background	#FFF8E8
--color-surface	#FFFDF7
--color-text	#2A241C
--color-text-muted	#6B6256
--color-border	#E3D2B4
--color-focus	#7A332B
--font-heading	"Tiro Devanagari Hindi", "Noto Serif Devanagari", Georgia, serif
--font-body	"Mukta", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	8px
--radius-button	8px
--space-section	64px wide / 44px narrow
--shadow-card	0 6px 18px rgba(39,50,77,.08)

Visual do / don't

DO	DO NOT
Use calendrical order and ritual restraint.	Do not invent a live Panchang panel.
Treat reference data with strong alignment.	Do not use decorative Sanskrit-style fonts for body copy.
Use warm traditional materials subtly.	Do not rely on gold-on-cream for readable text.

FUNCTION BOUNDARY	Visual calendar language is decorative/reference styling only. It does not create a new live Panchang, date picker, Muhurta calculator or service.

CHAPTER 10

AstroToday360.com | SITE-07

Event-first celestial intelligence with a modern newsroom cadence

Identity thesis

The word Today signals current celestial events and explanatory updates. The identity should feel like an astronomy-aware editorial newsroom: dark orbital anchors, cool blue analysis tones and solar-gold event highlights, with fast scanning and factual visual discipline.

Dimension	Site-local direction
Personality	Timely, analytical, confident, modern, observant.
Visual character	Newsroom/editorial rhythm, orbit lines, event chips, crisp data-like spacing.
Audience posture	Readers following transits, retrogrades, eclipses and current-event astrology explanations.
Density	Medium; compact discovery surfaces, spacious deep-dive articles.
Shape language	10-12px radius, crisp rectangles, circular event markers, fine grid lines.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended geometric wordmark with a 360-degree orbit ring and one event/star node.
Favicon	Orbit ring with one highlighted node; no text.
Avoid	Do not use a generic rocket, telescope or horoscope wheel crowded with glyphs.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#101A2D	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#2D5C7A	Secondary headings, active navigation cues, charts/illustration support.
Accent	#F0B44D	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#F4F7FB	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#101828	Long-form body and primary labels.
Muted text	#5F6B7A	Metadata and secondary labels; must remain AA at intended size.
Border	#D5DDE7	Dividers, card edges and input borders.
Focus ring	#2D5C7A	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Space Grotesk", "Noto Sans Devanagari", Arial, sans-serif
Body stack	"Inter", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Direct, current and explanatory; strong verbs, no alarmist prophecy styling.
Article measure	70ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Celestial-event photography/illustration, planetary diagrams, eclipse/transit geometry and dark-sky editorial crops.
- Orbital tracks, timestamp-like separators and single-node highlights; visuals stay explanatory.
- Use solar-gold only for event emphasis; avoid glowing neon effects behind body content.

CHAPTER 10

AstroToday360.com | SITE-07

Event-first celestial intelligence with a modern newsroom cadence

Shell, navigation and component language

Surface	Visual rule
Header	Compact newsroom masthead, left-aligned brand, clean nav, search and an optional decorative orbital rule. No live ticker is implied.
Footer	Dark orbital footer with concise editorial navigation and muted secondary text.
Navigation	High-clarity labels, subtle secondary-blue active block or underline, no animated star trail.
Article cards	16:9 or wide cards for event imagery, crisp headline/meta hierarchy, compact secondary cards for latest items.
Buttons	Primary dark navy, secondary white/blue border, gold for small emphasis badges only.
Forms/search	Technical-clean search/form inputs with blue focus, explicit error copy and no motion-dependent affordance.
Article/content	News-feature layout with strong title/deck/meta, wide media, readable long form, diagram captions and restrained side callouts.

Responsive principles

- Wide event cards stack into single-column lead + compact list without changing source order.
- Decorative orbital lines simplify on narrow screens to avoid visual noise.
- No sticky element may obscure the article title, search field or keyboard focus.

Accessibility treatment

- Blue focus ring is 2px minimum and remains visible on white/light-blue surfaces.
- Event color/badges include text, not color-only significance.
- Motion around orbit motifs respects prefers-reduced-motion and defaults to static when reduced.

Exact site-local design-token digest

Canonical site-local token	RC1 value

--color-border	#D5DDE7
--color-focus	#2D5C7A
--font-heading	"Space Grotesk", "Noto Sans Devanagari", Arial, sans-serif
--font-body	"Inter", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	12px
--radius-button	10px
--space-section	64px wide / 44px narrow
--shadow-card	0 8px 22px rgba(16,26,45,.10)

Visual do / don't

DO	DO NOT
Feel current and editorial.	Do not create a stock-market ticker aesthetic.
Use diagrams as explanation, not spectacle.	Do not use provider-default neon space art.
Keep metadata scannable.	Do not imply real-time data beyond published content.

FUNCTION BOUNDARY	Today/event styling must not imply a real-time feed, push alert system or live transit computation unless an upstream feature later authorizes it.

CHAPTER 11

ZodiacDaily.in | SITE-04

Social, comparative zodiac reading with an expressive editorial personality

Identity thesis

ZodiacDaily should feel like a stylish daily editorial brand focused on relationships between signs and cross-zodiac reading. Use a sophisticated plum/rose palette and paired visual compositions to differentiate it from technical Rashi and forecast sites.

Dimension	Site-local direction
Personality	Expressive, social, comparative, stylish, lively.
Visual character	Editorial magazine energy, paired shapes, plum/rose contrast and warm champagne highlights.
Audience posture	Readers comparing signs, dynamics and zodiac perspectives.
Density	Medium-light; visual browsing first, readable article depth second.
Shape language	18-20px cards, rounded paired modules, soft split compositions.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended elegant serif wordmark with two balanced zodiac arcs or paired constellation points.
Favicon	Two interlocking arcs forming a simple Z/D negative-space mark.
Avoid	Do not use heart icons as the brand mark or a full 12-sign wheel.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#4A234F	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#A04E69	Secondary headings, active navigation cues, charts/illustration support.
Accent	#E09B66	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF7F4	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#2C1D2F	Long-form body and primary labels.
Muted text	#75636F	Metadata and secondary labels; must remain AA at intended size.
Border	#E8D4DA	Dividers, card edges and input borders.
Focus ring	#7A2E67	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Cormorant Garamond", "Noto Serif Devanagari", Georgia, serif
Body stack	"Manrope", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Magazine-like and human; elegant but not tabloid.
Article measure	66ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Editorial sign illustrations, paired portraits/symbols, textured paper/gradient backdrops and tasteful lifestyle cues.
- Dual circles, mirrored arcs, paired dots and split borders suggesting comparison.
- Use rose/champagne as editorial accents; keep large text and body areas on stable light surfaces.

CHAPTER 11

ZodiacDaily.in | SITE-04

Social, comparative zodiac reading with an expressive editorial personality

Shell, navigation and component language

Surface	Visual rule
Header	Centered or balanced magazine masthead with compact categories and search; pairing motif may frame the wordmark.
Footer	Plum footer with ivory text and paired-arc separator; simple information architecture.
Navigation	Elegant text-first navigation; active state uses rose or champagne underline plus weight.
Article cards	Rounded magazine cards, 1:1 or 4:3 media, pair-friendly split cards where data already contains two comparable subjects.
Buttons	Primary plum; secondary white/plum border; rose is supporting accent, not the only action indicator.
Forms/search	Soft rectangular fields with explicit labels, 14px radius maximum and strong plum focus ring.
Article/content	Editorial long form with strong serif headings, comfortable quotes/callouts and generous image breathing room.

Responsive principles

- Paired layouts collapse vertically while preserving first/second semantic order.
- Large serif display type scales down aggressively to avoid wrapping into more than three lines where possible.
- Navigation becomes accessible drawer/menu; cards keep 16px minimum gutters.

Accessibility treatment

- Champagne/coral are decorative and not used alone for small text.
- Focus #7A2E67 remains visible across blush/white surfaces.
- Paired-sign visual differences always include textual labels.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#4A234F
--color-brand-secondary	#A04E69

Canonical site-local token	RC1 value
--color-accent	#E09B66
--color-background	#FFF7F4
--color-surface	#FFFFFF
--color-text	#2C1D2F
--color-text-muted	#75636F
--color-border	#E8D4DA
--color-focus	#7A2E67
--font-heading	"Cormorant Garamond", "Noto Serif Devanagari", Georgia, serif
--font-body	"Manrope", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	20px
--radius-button	14px
--space-section	72px wide / 52px narrow
--shadow-card	0 12px 30px rgba(74,35,79,.10)

Visual do / don't

DO	DO NOT
Use paired geometry to express comparison.	Do not turn every card into a compatibility widget.
Keep magazine polish and warmth.	Do not use romantic heart symbolism as default.
Let typography carry personality.	Do not use light rose text on blush backgrounds.

FUNCTION BOUNDARY	Comparison aesthetics do not create a new compatibility calculator or pair-selection tool. Components style existing content only.

CHAPTER 12

MyHoroscope360.com | SITE-06

Personal-feeling forecast literacy with calm editorial authority

Identity thesis

The word My creates a personal tone, but the frozen platform does not imply user accounts or individualized forecasts. The identity should feel reader-centered and reflective while remaining editorial, using composed blue/indigo with amber horizon accents.

Dimension	Site-local direction
Personality	Reflective, reassuring, intelligent, polished, reader-centered.
Visual character	Calm blue editorial system, horizon/orbit rings, refined cards and strong reading comfort.
Audience posture	Readers learning how horoscope forecasts are interpreted and synthesized.
Density	Medium, calm; generous article spacing and compact metadata.
Shape language	14px cards, 10px controls, broad curves used only in decorative horizon graphics.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended confident serif/sans wordmark with a horizon-circle or full-orbit 360 mark.
Favicon	Simple horizon arc inside a circle; no user/avatar symbol.
Avoid	Do not use profile/avatar motifs that imply personal accounts or stored horoscope profiles.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#20365F	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#536AA6	Secondary headings, active navigation cues, charts/illustration support.
Accent	#D6A547	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#F6F7FB	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#17213A	Long-form body and primary labels.
Muted text	#606B82	Metadata and secondary labels; must remain AA at intended size.
Border	#D8DFEB	Dividers, card edges and input borders.
Focus ring	#435FA3	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Libre Baskerville", "Noto Serif Devanagari", Georgia, serif
Body stack	"Inter", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Calm explanatory voice; avoid pseudo-personalized imperative language.
Article measure	68ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Soft celestial horizons, chart fragments, editorial portraits/abstract skies, calm gradient fields and subtle 360 rings.
- Horizon arcs, complete circles and layered translucent blue fields.
- Amber appears as sunrise-like accent in small areas; no full-screen gold gradients.

CHAPTER 12

MyHoroscope360.com | SITE-06

Personal-feeling forecast literacy with calm editorial authority

Shell, navigation and component language

Surface	Visual rule
Header	Calm editorial masthead with generous spacing, search, and understated 360 motif.
Footer	Deep blue footer with quiet secondary navigation and small amber separators.
Navigation	Text-first, steady spacing, selected state in secondary indigo with underline.
Article cards	Medium-radius cards, 16:9 or 4:3 imagery, clear deck/excerpt and refined metadata.
Buttons	Primary deep blue; secondary white/blue border; amber only for small highlight details.
Forms/search	Clean white fields on pale-blue background; labels above fields; blue focus ring.
Article/content	Magazine/essay reading experience with serif headings, wide media and simple explanatory callouts.

Responsive principles

- Horizon graphics crop gracefully rather than shrinking into illegibility.
- Cards move from 3/2 columns to 1 without changing semantic order.
- Long titles maintain a readable measure and do not overlap decorative circles.

Accessibility treatment

- Body and controls keep high contrast in blue/white combinations.
- Amber is never the only selected/error/success cue.
- Decorative orbit graphics are aria-hidden and motion-reduced.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#20365F
--color-brand-secondary	#536AA6
--color-accent	#D6A547

Canonical site-local token	RC1 value
--color-background	#F6F7FB
--color-surface	#FFFFFF
--color-text	#17213A
--color-text-muted	#606B82
--color-border	#D8DFEB
--color-focus	#435FA3
--font-heading	"Libre Baskerville", "Noto Serif Devanagari", Georgia, serif
--font-body	"Inter", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	14px
--radius-button	10px
--space-section	72px wide / 52px narrow
--shadow-card	0 10px 26px rgba(32,54,95,.09)

Visual do / don't

DO	DO NOT
Feel reader-centered without pretending personalization.	Do not add avatar/account treatment.
Favor calm editorial confidence.	Do not imply stored birth data or a personal dashboard.
Use 360-circle motifs sparingly.	Do not overuse glassmorphism.

FUNCTION BOUNDARY	The word My is brand voice only. DOC-26 must not imply authenticated profiles, stored birth data or personalized horoscope generation.

CHAPTER 13

DailyRashi360.com | SITE-03

Practical everyday Rashi guidance with grounded Indian warmth

Identity thesis

DailyRashi360 should feel useful and grounded rather than mystical. A forest/terracotta/mustard palette communicates daily-life practicality, while the UI emphasizes clear categories, concise cards and comfortable explanatory articles.

Dimension	Site-local direction
Personality	Practical, warm, grounded, steady, useful.
Visual character	Earthy contemporary palette, modest rounded cards, daily-life illustration and straightforward hierarchy.
Audience posture	Readers applying Rashi knowledge to everyday life situations.
Density	Medium; practical scanability with relaxed article reading.
Shape language	12-14px radius, friendly rectangles, simple circular Rashi markers.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended grounded wordmark with a simple 360 ring and one Rashi marker; avoid overly celestial ornament.
Favicon	Compact R/360 circle mark or single Rashi ring.
Avoid	Do not use a photorealistic deity, crystal or generic astrology wheel as the favicon.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#285047	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#C66C4B	Secondary headings, active navigation cues, charts/illustration support.
Accent	#D1A23B	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FBF7EE	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#1D2B28	Long-form body and primary labels.
Muted text	#66736F	Metadata and secondary labels; must remain AA at intended size.
Border	#DDD5C6	Dividers, card edges and input borders.
Focus ring	#285047	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Lora", "Noto Serif Devanagari", Georgia, serif
Body stack	"Source Sans 3", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Practical and direct; short context-setting descriptions.
Article measure	70ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Everyday-life editorial imagery, warm Indian textures, simple sign illustrations and grounded situational photography.
- Earthy circular markers, subtle woven/line patterns and 360 ring as a quiet framing element.
- Terracotta/mustard are secondary accents; maintain generous cream/white surfaces.

CHAPTER 13

DailyRashi360.com | SITE-03

Practical everyday Rashi guidance with grounded Indian warmth

Shell, navigation and component language

Surface	Visual rule
Header	Practical compact masthead, clear categories and search; brand feels useful rather than ceremonial.
Footer	Forest footer with cream text and simple structured links.
Navigation	Straightforward labels, forest active treatment and clear mobile menu.
Article cards	4:3 imagery, soft border, practical headline/excerpt, small Rashi/category marker and restrained shadow.
Buttons	Primary forest; secondary cream/forest; terracotta for contextual highlights only.
Forms/search	Simple labeled fields, 12px radius, clear focus and helpful error/support text.
Article/content	Readable explanatory layout, concrete callouts and practical subheading rhythm; no decorative interruptions every paragraph.

Responsive principles

- Everyday cards become single-column with image above text and preserved order.
- Navigation stays compact and thumb-accessible without a persistent bottom app bar.
- Decorative patterns reduce on narrow screens to prioritize content.

Accessibility treatment

- Muted text must be tested on cream; use primary text for essential metadata when contrast is insufficient.
- Focus uses deep forest with 2px ring/offset.
- Rashi colors/icons never become the sole category identifier.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#285047
--color-brand-secondary	#C66C4B
--color-accent	#D1A23B

Canonical site-local token	RC1 value
--color-background	#FBF7EE
--color-surface	#FFFFFF
--color-text	#1D2B28
--color-text-muted	#66736F
--color-border	#DDD5C6
--color-focus	#285047
--font-heading	"Lora", "Noto Serif Devanagari", Georgia, serif
--font-body	"Source Sans 3", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	14px
--radius-button	12px
--space-section	64px wide / 44px narrow
--shadow-card	0 8px 22px rgba(40,80,71,.09)

Visual do / don't

DO	DO NOT
Feel useful and grounded.	Do not make it look like a remedy or ritual site.
Use warm everyday imagery.	Do not imply daily push forecasts or subscriptions.
Prioritize readable content structure.	Do not use low-contrast mustard body text.

FUNCTION BOUNDARY	Daily styling is an editorial cadence only. It does not create a notification system, personalized daily feed or date-based dynamic widget.

CHAPTER 14

DailyHoroscope360.com | SITE-05

Forecast-led daily reading with energetic but controlled visual momentum

Identity thesis

DailyHoroscope360 needs more forecast energy than MyHoroscope360 but should remain credible. Use deep violet with sunrise orange and muted rose to create a clear day-ahead mood while keeping cards and articles highly scannable.

Dimension	Site-local direction
Personality	Energetic, anticipatory, polished, scannable, optimistic.
Visual character	Sunrise accent, forecast arcs, compact cards, confident headings and clear daily rhythm.
Audience posture	Readers looking for sign-centric outlook and forecast content.
Density	Medium-dense discovery, medium article density.
Shape language	16px cards, 12px buttons, rounded forecast chips used only where semantic labels already exist.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended strong wordmark with a circular horizon/360 mark and rising accent stroke.
Favicon	Half-sun/horizon inside a 360 circle.
Avoid	Do not use a clock/ticker icon that implies real-time updates.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#2C244D	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#995479	Secondary headings, active navigation cues, charts/illustration support.
Accent	#E67A3A	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF8F4	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#241E35	Long-form body and primary labels.
Muted text	#6C6377	Metadata and secondary labels; must remain AA at intended size.
Border	#E4D8DE	Dividers, card edges and input borders.
Focus ring	#6A45A1	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Fraunces", "Noto Serif Devanagari", Georgia, serif
Body stack	"Inter", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Forecast-forward and concise; energetic without guaranteed-outcome language.
Article measure	68ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Sunrise/sunset celestial scenes, sign-led editorial art, subtle gradients and high-clarity forecast illustrations.
- Horizon arcs, day-cycle curves and small star nodes.
- Orange is a pulse/highlight, not the default large background or long-text color.

CHAPTER 14

DailyHoroscope360.com | SITE-05

Forecast-led daily reading with energetic but controlled visual momentum

Shell, navigation and component language

Surface	Visual rule
Header	Energetic compact masthead with clear search/navigation and a thin sunrise accent line.
Footer	Deep violet footer with warm off-white text and simple rose/orange accents.
Navigation	Clear text labels, selected state with orange/rose underline plus weight.
Article cards	Scannable 16:9/4:3 cards, strong title, sign/category cue, compact metadata, restrained excerpt.
Buttons	Primary violet; secondary white/violet; orange only for high-visibility non-destructive highlight.
Forms/search	White fields with violet border/focus, explicit validation and no gradient-filled inputs.
Article/content	Forecast editorial layout, prominent title/deck/meta, strong section markers, simple callouts and predictable body rhythm.

Responsive principles

- Forecast card density reduces from multi-column to single-column without reshuffling article order.
- Large accent arcs are cropped/removed on small screens rather than overlaying content.
- Search and menu controls remain at least 44x44 CSS px on touch layouts.

Accessibility treatment

- Orange and rose are never used as sole small-text colors on light backgrounds.
- Focus #6A45A1 remains highly visible.
- Any sign/outlook label has textual content in addition to icon/color.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#2C244D
--color-brand-secondary	#995479
--color-accent	#E67A3A

Canonical site-local token	RC1 value
--color-background	#FFF8F4
--color-surface	#FFFFFF
--color-text	#241E35
--color-text-muted	#6C6377
--color-border	#E4D8DE
--color-focus	#6A45A1
--font-heading	"Fraunces", "Noto Serif Devanagari", Georgia, serif
--font-body	"Inter", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	16px
--radius-button	12px
--space-section	64px wide / 44px narrow
--shadow-card	0 10px 26px rgba(44,36,77,.10)

Visual do / don't

DO	DO NOT
Create day-ahead energy.	Do not promise real-time or guaranteed predictions.
Keep forecast content scannable.	Do not make every element a pill.
Use sunrise accents with restraint.	Do not use orange text for long reading.

FUNCTION BOUNDARY	The visual daily/forecast language must not imply live updates, push alerts, personalized forecast computation or a date-controlled tool.

CHAPTER 15

ApkaNakshatra.com | SITE-10

Premium lunar-star knowledge with the strongest link to the established brand DNA

Identity thesis

Nakshatra is the closest semantic fit to the established celestial brand foundation. This site should carry the most premium, refined navy-gold expression in the public estate while still being its own frontend. Use precise star-lattice motifs, elegant typography and quiet ivory surfaces rather than copying Central Admin UI.

Dimension	Site-local direction
Personality	Premium, contemplative, celestial, scholarly, refined.
Visual character	Cosmic navy, antique gold, star-lattice geometry, fine lines and editorial luxury.
Audience posture	Readers exploring Nakshatra and Pada knowledge in depth.
Density	Medium; rich identity but spacious reading.
Shape language	10px cards, 8px buttons, fine borders, low-soft elevation.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended premium serif wordmark with a 27-star lattice/one highlighted star motif. This is direction only; exact vector artwork is not upstream-established.
Favicon	Single eight-point/star-lattice glyph in navy/gold with a strong silhouette.
Avoid	Do not recreate the Central Admin shell mark or use an over-detailed 27-star diagram at 16px.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#111A36	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#2C3B6B	Secondary headings, active navigation cues, charts/illustration support.
Accent	#C3A15A	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FCF8EF	Default page canvas.
Surface	#FFFEFB	Cards, article body surfaces, forms and overlays.
Primary text	#111A36	Long-form body and primary labels.
Muted text	#616579	Metadata and secondary labels; must remain AA at intended size.
Border	#E3D5B5	Dividers, card edges and input borders.
Focus ring	#2C3B6B	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Cormorant Garamond", "Noto Serif Devanagari", Georgia, serif
Body stack	"Inter", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Refined, knowledge-led and calm; no occult sensationalism.
Article measure	68ch
Section spacing	80px wide / 56px narrow

Imagery, motif and decorative language

- Deep-sky celestial illustrations, lunar texture, precise constellation diagrams, refined gold-line astronomy and culturally respectful symbolic art.
- 27-star lattice, lunar orbit, fine radial geometry and gold keylines.
- Use gold as line/accent, not broad body background; ivory remains the primary reading field.

CHAPTER 15

ApkaNakshatra.com | SITE-10

Premium lunar-star knowledge with the strongest link to the established brand DNA

Shell, navigation and component language

Surface	Visual rule
Header	Elegant navy/ivory masthead with restrained gold keyline and refined wordmark; navigation is quiet and text-first.
Footer	Midnight/cosmic navy footer with ivory text and thin gold constellation geometry.
Navigation	Small caps/medium-weight text where readable; active state uses gold line plus navy weight, never gold text alone on ivory.
Article cards	Fine-border editorial cards, 4:3/1:1 celestial media, subtle gold detail, no heavy glass blur.
Buttons	Primary cosmic navy; secondary ivory/navy border; antique gold used for icon/line emphasis, not primary button text.
Forms/search	Ivory/white fields, navy labels, indigo focus; refined but operational.
Article/content	Luxury editorial reading experience, generous vertical rhythm, fine star-lattice section markers and strong figure captions.

Responsive principles

- Star-lattice decoration simplifies to one or two static anchors on narrow screens.
- Typography remains large but avoids ornamental headings that wrap excessively.
- Cards preserve source order and collapse cleanly; no horizontal astrology wheel navigation is required.

Accessibility treatment

- Gold never carries essential text/state alone.
- Navy/ivory combinations meet strong contrast; focus uses indigo.
- Decorative star geometry is aria-hidden and disabled/reduced under reduced-motion preference.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#111A36
--color-brand-secondary	#2C3B6B

Canonical site-local token	RC1 value
--color-accent	#C3A15A
--color-background	#FCF8EF
--color-surface	#FFFEFB
--color-text	#111A36
--color-text-muted	#616579
--color-border	#E3D5B5
--color-focus	#2C3B6B
--font-heading	"Cormorant Garamond", "Noto Serif Devanagari", Georgia, serif
--font-body	"Inter", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	10px
--radius-button	8px
--space-section	80px wide / 56px narrow
--shadow-card	0 10px 28px rgba(17,26,54,.10)

Visual do / don't

DO	DO NOT
Use the established navy-gold DNA most strongly here.	Do not copy Central Admin components.
Favor precise celestial geometry.	Do not turn every surface dark.
Keep long-form reading premium and calm.	Do not use gold as low-contrast paragraph text.

FUNCTION BOUNDARY	Nakshatra motifs do not create a star-picker, birth-star calculator or Pada tool. Only existing frozen public contracts may be rendered.

CHAPTER 16

RashiRemedies.com | SITE-12

Reassuring remedial knowledge with ethical, grounded and calming visual care

Identity thesis

Remedies content should feel reassuring and responsible, not miraculous or fear-based. The visual identity uses deep herbal green, saffron and rosewood with soft cream surfaces, suggesting care and tradition while avoiding medical or guaranteed-outcome cues.

Dimension	Site-local direction
Personality	Reassuring, grounded, ethical, caring, traditional-modern.
Visual character	Herbal green anchors, saffron warmth, organic line motifs and calm generous cards.
Audience posture	Readers seeking traditional remedial knowledge and practical context.
Density	Medium-light; calm browsing and generous explanatory reading.
Shape language	16px cards, 12px controls, soft organic curves used decoratively.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended clean wordmark with a protective circular thread/leaf/diya-line motif, abstract enough to avoid medical branding.
Favicon	Simple protective ring with one saffron flame/leaf stroke.
Avoid	Do not use medicine-cross, pill, miracle-light or aggressive occult imagery.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#244A3B	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#8A4F43	Secondary headings, active navigation cues, charts/illustration support.
Accent	#D79336	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF8ED	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#1F2E28	Long-form body and primary labels.
Muted text	#66756E	Metadata and secondary labels; must remain AA at intended size.
Border	#DDD8C7	Dividers, card edges and input borders.
Focus ring	#3C6655	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Karma", "Noto Serif Devanagari", Georgia, serif
Body stack	"Hind", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Calm, conditional and educational; never fear-mongering or guaranteed-result framing.
Article measure	68ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Natural materials, diya/mantra/thread/offerings in respectful editorial photography, botanical textures and calm symbolic illustrations.
- Protective circles, gentle rising flame lines, woven threads and leaf-like geometry.
- Saffron is a warm highlight; green/cream carry most reading surfaces.

CHAPTER 16

RashiRemedies.com | SITE-12

Reassuring remedial knowledge with ethical, grounded and calming visual care

Shell, navigation and component language

Surface	Visual rule
Header	Calm, simple masthead with grounded wordmark and clear search/navigation; avoid decorative clutter.
Footer	Deep green footer with cream text, restrained saffron line and clear policy/static links.
Navigation	Text-first, confident green active state, no ritual-icon-only navigation.
Article cards	Soft-radius cards, 4:3 editorial imagery, clear topic/intent labels and gentle shadow.
Buttons	Primary deep green; secondary cream/green; saffron for secondary emphasis only.
Forms/search	Calm light fields, explicit labels, green focus and clear error/success messaging with text/icons.
Article/content	Comfortable educational body, caution/variation notes visually clear, respectful imagery and strong source/caption treatment.

Responsive principles

- Soft decoration recedes on narrow screens; content and caution text take priority.
- Cards stack with full readable headlines and no image-only remedy tiles.
- Form controls retain 44px minimum touch target and visible labels.

Accessibility treatment

- Green primary and dark text provide contrast; saffron is never essential small text.
- Focus ring #3C6655 remains visible on cream/white.
- Success/warning cues include labels/icons; green alone is not success semantics.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#244A3B
--color-brand-secondary	#8A4F43

Canonical site-local token	RC1 value
--color-accent	#D79336
--color-background	#FFF8ED
--color-surface	#FFFFFF
--color-text	#1F2E28
--color-text-muted	#66756E
--color-border	#DDD8C7
--color-focus	#3C6655
--font-heading	"Karma", "Noto Serif Devanagari", Georgia, serif
--font-body	"Hind", "Noto Sans Devanagari", Arial, sans-serif

--radius-button	12px
--space-section	72px wide / 52px narrow
--shadow-card	0 10px 24px rgba(36,74,59,.08)

Visual do / don't

DO	DO NOT
Feel calm, ethical and grounded.	Do not suggest medical treatment visually.
Use respectful natural imagery.	Do not use fear-heavy black/red occult styling.
Make caution/variation notes easy to notice.	Do not imply guaranteed results or one-click remedies.

FUNCTION BOUNDARY	Remedy visual language must not imply transactional remedy ordering, personalized prescriptions or health claims not present in the frozen product scope.

CHAPTER 17

ApkiKundli.com | SITE-08

Technical natal-chart literacy with a scholarly, diagram-first visual system

Identity thesis

Kundli implies structured chart mechanics, houses, placements and technical interpretation. This identity should be the most diagrammatic and scholarly of the estate: ink navy, brick, brass and grid-cream with low-radius components and precise alignment.

Dimension	Site-local direction
Personality	Technical, scholarly, precise, methodical, authoritative.
Visual character	Chart-grid geometry, fine brass lines, ink navy typography and structured information density.
Audience posture	Readers studying natal chart mechanics and technical Jyotisha interpretation.
Density	Medium-dense to dense; strong tables/diagrams with readable article measure.
Shape language	4-6px radius, square grids, crisp borders, restrained shadow.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended geometric wordmark with a simplified square Kundli/chart-grid motif and one highlighted house cell.
Favicon	Minimal 3x3/diamond chart grid with strong outer boundary.
Avoid	Do not use a full detailed Kundli chart that becomes illegible at favicon size.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#17233C	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#8E493E	Secondary headings, active navigation cues, charts/illustration support.
Accent	#B99A54	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FAF5E9	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#121B2D	Long-form body and primary labels.
Muted text	#636C7B	Metadata and secondary labels; must remain AA at intended size.
Border	#D8CFBE	Dividers, card edges and input borders.
Focus ring	#2E4A7A	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Spectral", "Noto Serif Devanagari", Georgia, serif
Body stack	"IBM Plex Sans", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Precise, technical and explanatory; avoid vague mystical phrasing.
Article measure	72ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Clean chart diagrams, annotated house/planet illustrations, manuscript fragments, technical line art and restrained traditional textures.
- Square/diamond chart grids, axis lines, numbered-cell geometry and brass annotation strokes.
- Grid motifs stay in margins/backgrounds and never obscure data or body text.

CHAPTER 17

ApkiKundli.com | SITE-08

Technical natal-chart literacy with a scholarly, diagram-first visual system

Shell, navigation and component language

Surface	Visual rule
Header	Technical masthead with strong wordmark, compact nav/search and a thin chart-grid accent.
Footer	Ink navy footer, grid-line separators and disciplined link hierarchy.
Navigation	Compact, text-first, selected state with brick/brass keyline plus weight.
Article cards	Low-radius cards, diagram-led media, clear title/metadata, minimal shadow and precise alignment.
Buttons	Primary ink navy; secondary white/navy; brick only for secondary emphasis, brass for rules/icons.
Forms/search	Crisp low-radius fields, explicit labels/help, strong focus; no ornamental input frames.
Article/content	Scholarly body with precise heading ladder, figure labels/captions, tables/diagrams and wider 72ch measure where legible.

Responsive principles

- Technical diagrams use responsive containers and accessible overflow/alternate description where needed.
- Dense card grids collapse without hiding metadata essential to comprehension.
- No fixed-width chart may force the whole page to horizontal-scroll.

Accessibility treatment

- Brass is decorative and not small body text.
- Chart meaning must be available through accompanying text/caption where relevant.
- Focus #2E4A7A is strong on cream/white.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#17233C
--color-brand-secondary	#8E493E
--color-accent	#B99A54

Canonical site-local token	RC1 value

--color-surface	#FFFFFF
--color-text	#121B2D
--color-text-muted	#636C7B
--color-border	#D8CFBE
--color-focus	#2E4A7A
--font-heading	"Spectral", "Noto Serif Devanagari", Georgia, serif
--font-body	"IBM Plex Sans", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	6px
--radius-button	6px
--space-section	64px wide / 44px narrow
--shadow-card	0 6px 18px rgba(23,35,60,.08)

Visual do / don't

DO	DO NOT
Make technical structure visible.	Do not add a Kundli generator form.
Use grid alignment and disciplined typography.	Do not use complex charts as decorative background behind text.
Treat diagrams as first-class editorial assets.	Do not soften everything into rounded lifestyle cards.

FUNCTION BOUNDARY	Chart-grid styling does not create a birth-data form, Kundli generator or interactive chart calculator. It presents only frozen content/data.

CHAPTER 18

MatchYourKundli.com | SITE-09

Balanced compatibility knowledge with mature warmth and respectful pair symbolism

Identity thesis

The domain implies two-chart compatibility and marriage matching. The identity should feel mature, balanced and trustworthy rather than wedding-commercial or romantic-cliche. Burgundy, muted rose and antique gold support paired geometric layouts and clear comparative reading.

Dimension	Site-local direction
Personality	Balanced, respectful, warm, mature, trustworthy.
Visual character	Paired geometry, burgundy/rose warmth, soft ivory, elegant serif headings and structured comparisons.
Audience posture	Readers studying Kundli matching and compatibility concepts.
Density	Medium; comparison surfaces moderately dense, articles comfortable.
Shape language	18px cards, 12px controls, paired circles/columns as decorative language.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended elegant wordmark with two interlocking chart circles/diamond frames in balanced symmetry.
Favicon	Two overlapping circles/diamonds with clear negative space.
Avoid	Do not use hearts, wedding rings or couple silhouettes as the main brand mark.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#68273A	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#AD6873	Secondary headings, active navigation cues, charts/illustration support.
Accent	#C69C55	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF7F3	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#2D1E24	Long-form body and primary labels.
Muted text	#75656B	Metadata and secondary labels; must remain AA at intended size.
Border	#E7D6D7	Dividers, card edges and input borders.
Focus ring	#7C3852	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Playfair Display", "Noto Serif Devanagari", Georgia, serif
Body stack	"Manrope", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Warm and balanced; avoid sensational relationship guarantees.
Article measure	68ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Paired symbolic illustrations, respectful wedding/tradition imagery when editorially relevant, dual-chart diagrams and balanced compositions.
- Interlocking circles, mirrored brackets and twin-line geometry.
- Rose/gold accents frame comparisons; keep article surfaces neutral and readable.

CHAPTER 18

MatchYourKundli.com | SITE-09

Balanced compatibility knowledge with mature warmth and respectful pair symbolism

Shell, navigation and component language

Surface	Visual rule
Header	Balanced masthead with centered/paired visual cue, clear nav and search; not a matrimonial portal layout.
Footer	Burgundy footer with ivory text and paired-line separators.
Navigation	Text-first, elegant active underline, no relationship-status icons.
Article cards	Paired comparison cards only when content semantics support it; otherwise standard editorial cards with warm radius.
Buttons	Primary burgundy; secondary ivory/burgundy border; gold for small details.
Forms/search	Rounded but professional fields with strong labels/focus; no two-person input form unless upstream feature exists.
Article/content	Comparison-friendly typography, clear two-subject tables/sections when data exists, generous body rhythm and calm conclusion styling.

Responsive principles

- Two-column comparisons stack in declared semantic order and keep labels repeated for clarity.
- Paired visual motifs simplify rather than overlap on narrow screens.
- No comparison table loses subject identity when converted to stacked cards.

Accessibility treatment

- Rose/gold never carry meaning alone.
- Focus #7C3852 remains visible.
- Paired diagrams require text labels for each subject and reading order.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#68273A
--color-brand-secondary	#AD6873
--color-accent	#C69C55

Canonical site-local token	RC1 value
--color-background	#FFF7F3
--color-surface	#FFFFFF
--color-text	#2D1E24
--color-text-muted	#75656B
--color-border	#E7D6D7
--color-focus	#7C3852
--font-heading	"Playfair Display", "Noto Serif Devanagari", Georgia, serif
--font-body	"Manrope", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	18px
--radius-button	12px
--space-section	72px wide / 52px narrow
--shadow-card	0 10px 26px rgba(104,39,58,.09)

Visual do / don't

DO	DO NOT
Use mature paired geometry.	Do not mimic a wedding marketplace.
Keep comparisons balanced.	Do not imply a live matchmaking calculator.
Favor respectful editorial imagery.	Do not use pink-on-blush low-contrast text.

FUNCTION BOUNDARY	Pair/match aesthetics must not create a two-person data-entry, Guna calculator or matchmaking service surface unless approved upstream.

CHAPTER 19

VastuShastra360.in | SITE-14

Architectural Vastu knowledge with spatial order, material warmth and geometric discipline

Identity thesis

Vastu is spatial and architectural. The identity should feel grounded in plans, orientation and built environments rather than celestial astrology. Use charcoal, terracotta, sandstone and structured grids with low radii and clear directional geometry.

Dimension	Site-local direction
Personality	Architectural, grounded, orderly, practical, authoritative.
Visual character	Orthogonal grids, plan-line diagrams, compass geometry, stone/sand surfaces and low-radius UI.
Audience posture	Readers learning Vastu principles for rooms, plots, homes and spatial planning.
Density	Medium-dense, especially for diagrams/checklists; articles remain readable.
Shape language	4px cards/buttons, orthogonal panels, crisp borders, minimal elevation.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended architectural wordmark with simplified plan-grid/compass axis; one north/orientation cue may appear without becoming a tool.
Favicon	Four-quadrant plan square with a single orientation notch.
Avoid	Do not use a literal floor plan too detailed for small size or a generic compass app icon.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#29383D	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#A85A3E	Secondary headings, active navigation cues, charts/illustration support.
Accent	#C1A06B	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#F5F2EA	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#1F292C	Long-form body and primary labels.
Muted text	#687579	Metadata and secondary labels; must remain AA at intended size.
Border	#D7D2C6	Dividers, card edges and input borders.
Focus ring	#355E5A	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Merriweather", "Noto Serif Devanagari", Georgia, serif
Body stack	"Source Sans 3", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Practical, spatial and explanatory; avoid superstition-heavy visual tone.
Article measure	72ch
Section spacing	64px wide / 44px narrow

Imagery, motif and decorative language

- Architectural photography, plans, room diagrams, materials, directional arrows and clean spatial illustrations.
- Orthogonal grid, compass cross, plan line, corner brackets and sandstone textures.
- Terracotta and sandstone warm the system; keep structural lines thin and systematic.

CHAPTER 19

VastuShastra360.in | SITE-14

Architectural Vastu knowledge with spatial order, material warmth and geometric discipline

Shell, navigation and component language

Surface	Visual rule
Header	Architectural horizontal masthead with strong grid alignment; nav sits on clear baseline, search is compact.
Footer	Charcoal footer with sandstone rules and structured columns.
Navigation	Straight labels, squared active marker/underline, no floating pill navigation.
Article cards	Low-radius, border-led cards with 4:3 spatial imagery/diagrams; little shadow.
Buttons	Primary charcoal; secondary white/charcoal; terracotta for secondary emphasis.
Forms/search	Squared inputs, explicit labels, strong focus and predictable spacing.
Article/content	Diagram-friendly wide content regions, clear figure captions, checklists/tables and disciplined paragraph measure.

Responsive principles

- Plan diagrams scale within container or provide accessible overflow; page itself must not horizontally scroll.
- Multi-column spatial cards collapse to stacked blocks preserving semantic order.
- Decorative plan grids disappear where they compete with content at narrow widths.

Accessibility treatment

- Compass/direction cues always include text where meaning matters.
- Sandstone is decorative, not small-text color.
- Focus #355E5A is clear on stone/white.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#29383D
--color-brand-secondary	#A85A3E
--color-accent	#C1A06B
--color-background	#F5F2EA

Canonical site-local token	RC1 value
--color-surface	#FFFFFF
--color-text	#1F292C
--color-text-muted	#687579
--color-border	#D7D2C6
--color-focus	#355E5A
--font-heading	"Merriweather", "Noto Serif Devanagari", Georgia, serif
--font-body	"Source Sans 3", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	4px
--radius-button	4px
--space-section	64px wide / 44px narrow
--shadow-card	0 4px 14px rgba(41,56,61,.08)

Visual do / don't

DO	DO NOT
Use architectural precision.	Do not make it look like another cosmic horoscope site.
Let diagrams breathe.	Do not imply an interactive compass/room planner.
Use low-radius, grid-driven UI.	Do not use plan lines behind body copy.

FUNCTION BOUNDARY	Architectural motifs must not create a Vastu calculator, compass sensor or room-planning tool. DOC-26 styles existing content pages only.

CHAPTER 20

ApkiRashi.com | SITE-02

Technical Rashi interpretation with an editorial knowledge-bank tone

Identity thesis

ApkiRashi should be more interpretive and technical than WhatsYourRashi. Use indigo, copper and parchment with an editorial annotation language, making the site feel like a serious Rashi knowledge bank rather than a beginner discovery experience.

Dimension	Site-local direction
Personality	Analytical, interpretive, composed, editorial, knowledgeable.
Visual character	Indigo/copper editorial system, subtle zodiac stamps, annotations and measured card geometry.
Audience posture	Readers seeking deeper Rashi-centric interpretations and structured knowledge.
Density	Medium; slightly denser than WhatsYourRashi, especially taxonomy/archive pages.
Shape language	10px cards, 8px buttons, moderate borders, compact metadata.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended editorial wordmark with one abstract zodiac-sector/glyph-stamp cue.
Favicon	Single sector/glyph stamp in a compact square/circle.
Avoid	Do not reuse WhatsYourRashi question/orbit icon; this site should feel more technical.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#30375D	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#B06B45	Secondary headings, active navigation cues, charts/illustration support.
Accent	#C5A253	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#F8F3E9	Default page canvas.
Surface	#FFFFFF	Cards, article body surfaces, forms and overlays.
Primary text	#20243A	Long-form body and primary labels.
Muted text	#666B7C	Metadata and secondary labels; must remain AA at intended size.
Border	#DDD5C5	Dividers, card edges and input borders.
Focus ring	#4D5791	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Literata", "Noto Serif Devanagari", Georgia, serif
Body stack	"Inter", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Interpretive and specific; scholarly editorial voice without excessive ornament.
Article measure	70ch
Section spacing	68px wide / 48px narrow

Imagery, motif and decorative language

- Structured zodiac illustrations, annotated sign diagrams, editorial line art and copper-on-parchment detail.
- Zodiac-sector stamps, annotation brackets, thin copper rules and small numbered markers.
- Copper/gold used as annotation and section markers; indigo/text dominate reading.

CHAPTER 20

ApkiRashi.com | SITE-02

Technical Rashi interpretation with an editorial knowledge-bank tone

Shell, navigation and component language

Surface	Visual rule
Header	Editorial knowledge-bank masthead, clear search, compact navigation and subtle copper rule.
Footer	Indigo footer with parchment text and systematic columns.
Navigation	Compact labels, indigo active state plus copper underline.
Article cards	10px cards, 4:3 imagery/illustration, clear category/meta, slightly denser grid than SITE-01.
Buttons	Primary indigo; secondary parchment/indigo border; copper/gold accents secondary.
Forms/search	Clean low-radius fields with strong labels and indigo focus.
Article/content	Research/editorial layout, clear definition/callout treatment, annotations and diagrams without changing ArticleBody semantics.

Responsive principles

- Dense archive grids collapse predictably; metadata may wrap but is not hidden if semantically required.
- Annotation motifs simplify on narrow screens.
- Article headings and diagrams preserve readable order/labels at all widths.

Accessibility treatment

- Copper/gold are not primary small-text colors.
- Focus #4D5791 remains visible on parchment/white.
- Zodiac glyphs always have textual labels/context.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#30375D
--color-brand-secondary	#B06B45
--color-accent	#C5A253

Canonical site-local token	RC1 value
--color-background	#F8F3E9

--color-text-muted	#666B7C
--color-border	#DDD5C5
--color-focus	#4D5791
--font-heading	"Literata", "Noto Serif Devanagari", Georgia, serif
--font-body	"Inter", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	10px
--radius-button	8px
--space-section	68px wide / 48px narrow
--shadow-card	0 7px 20px rgba(48,55,93,.08)

Visual do / don't

DO	DO NOT
Feel like a serious Rashi knowledge bank.	Do not copy WhatsYourRashi rounded/playful treatment.
Use editorial annotations.	Do not add a sign calculator.
Differentiate clearly from beginner discovery SITE-01.	Do not use decorative glyph fonts for body text.

FUNCTION BOUNDARY	Technical interpretation styling does not create a Rashi calculator, personalized profile or interactive chart feature.

CHAPTER 21

ApkaPandit.in | SITE-13

Ritual knowledge with reverence, procedural clarity and contemporary trust

Identity thesis

Pandit-oriented ritual knowledge should feel respectful and traditional without becoming ornate or transactional. Deep maroon, saffron and sandalwood create a warm ritual identity, while practical procedure cards and clean article typography keep the experience usable.

Dimension	Site-local direction
Personality	Reverent, trustworthy, practical, warm, traditional.
Visual character	Maroon/saffron ritual warmth, sandalwood surfaces, restrained temple-line motifs and procedural clarity.
Audience posture	Readers learning puja, vrat, festival and ritual procedures/meaning.
Density	Medium; procedure/checklist sections may be denser, articles remain calm.
Shape language	10px cards, 8px controls, modest ornaments and line separators.

ASSET STATUS	Exact logo and favicon artwork are not established in DOC-01 through DOC-25. The following logo/favicon directions are DOC-26 design recommendations for approval; they are not claims that an existing asset already exists.

Asset	Recommended direction
Logo	Recommended dignified wordmark with abstract diya/kalash/temple-line mark, simplified and non-denominational in presentation.
Favicon	Single diya-flame or temple-arch line glyph with strong silhouette.
Avoid	Do not use a photorealistic deity portrait, priest avatar or crowded ritual scene as logo/favicon.

Palette and token values

Token role	Swatch / hex	Visual use
Brand primary	#5B2932	Primary masthead, strong headings, primary actions, dark emphasis.
Brand secondary	#A45E33	Secondary headings, active navigation cues, charts/illustration support.
Accent	#C68D36	Decorative emphasis, keylines, small highlights; never long body text unless contrast passes.
Page background	#FFF7EE	Default page canvas.
Surface	#FFFEFB	Cards, article body surfaces, forms and overlays.
Primary text	#2F2024	Long-form body and primary labels.
Muted text	#786A6D	Metadata and secondary labels; must remain AA at intended size.
Border	#E6D4C4	Dividers, card edges and input borders.
Focus ring	#7A3344	2px minimum visible focus indicator with offset; never removed.

Typography and editorial rhythm

Rule	Site-local specification
Heading stack	"Tiro Devanagari Hindi", "Noto Serif Devanagari", Georgia, serif
Body stack	"Mukta", "Noto Sans Devanagari", Arial, sans-serif
Headline voice	Respectful and procedural; clear instructions without transactional sales tone.
Article measure	68ch
Section spacing	72px wide / 52px narrow

Imagery, motif and decorative language

- Respectful ritual photography, hands/materials/altars where appropriate, diya/kalash/floral details, temple architecture and clear procedure illustrations.
- Temple arch line, diya flame, kalash contour, rangoli-inspired border fragments used sparingly.
- Saffron/gold frame key sections; body content remains on ivory/sacred-white surfaces.

CHAPTER 21

ApkaPandit.in | SITE-13

Ritual knowledge with reverence, procedural clarity and contemporary trust

Shell, navigation and component language

Surface	Visual rule
Header	Dignified warm masthead, text-first nav/search and restrained ritual motif; no booking CTA is introduced.
Footer	Deep maroon footer with sandalwood text and small saffron line motifs.
Navigation	Plain text labels, maroon active state with saffron underline; iconography supplementary only.
Article cards	Procedure/topic cards with 4:3 imagery, modest radius, clear title/excerpt and no sales-price styling.
Buttons	Primary maroon; secondary ivory/maroon; saffron reserved for accents and supportive actions.
Forms/search	Clear labeled fields, maroon focus, strong help/error copy; no booking/service form unless upstream exists.
Article/content	Procedure-friendly hierarchy, numbered/step content styling where ArticleBody supports it, callouts for variation/safety, strong captions and whitespace.

Responsive principles

- Procedure steps/cards stack in source order and retain numbering/labels.
- Ritual imagery crops respectfully and never dominates above the article title on narrow screens.
- Decorative temple borders simplify or disappear under reduced-motion/narrow conditions.

Accessibility treatment

- Saffron is not long-text color on cream.
- Focus #7A3344 remains visible and keyboard persistent.
- Ritual icons do not replace step labels, headings or warnings.

Exact site-local design-token digest

Canonical site-local token	RC1 value
--color-brand-primary	#5B2932

Canonical site-local token	RC1 value
--color-brand-secondary	#A45E33
--color-accent	#C68D36
--color-background	#FFF7EE
--color-surface	#FFFEFB
--color-text	#2F2024
--color-text-muted	#786A6D
--color-border	#E6D4C4
--color-focus	#7A3344
--font-heading	"Tiro Devanagari Hindi", "Noto Serif Devanagari", Georgia, serif
--font-body	"Mukta", "Noto Sans Devanagari", Arial, sans-serif
--radius-card	10px
--radius-button	8px
--space-section	72px wide / 52px narrow
--shadow-card	0 8px 20px rgba(91,41,50,.08)

Visual do / don't

DO	DO NOT
Balance reverence with practical clarity.	Do not turn the site into a priest-booking marketplace.
Use warm traditional materials subtly.	Do not use deity images as decorative buttons.
Make procedure structure easy to follow.	Do not over-ornament every card and divider.

FUNCTION BOUNDARY	Pandit/ritual identity does not introduce booking, commerce, live priest availability or ritual scheduling features beyond frozen platform scope.

22. Cross-Site Visual Differentiation Matrix

Site	Primary personality	Palette anchor	Heading character	Shape/density	Signature motif
WhatsYourRashi.in	Curious	#1F2A5A / #F2B84B	Fraunces	Rounded rectangles, circular sign markers, soft orbit arcs; avoid excessive pills.	Small dotted constellations, orbit paths and one recurring question-arc device
JaniyePanchang.com	Precise	#27324D / #D7A43A	Tiro Devanagari Hindi	8px radius, fine rules, grid-aligned blocks, circular sun/moon marks used decoratively.	Fine calendrical grid, concentric solar rings, small crescent markers and restrained manuscript rules
AstroToday360.com	Timely	#101A2D / #F0B44D	Space Grotesk	10-12px radius, crisp rectangles, circular event markers, fine grid lines.	Orbital tracks, timestamp-like separators and single-node highlights; visuals stay explanatory
ZodiacDaily.in	Expressive	#4A234F / #E09B66	Cormorant Garamond	18-20px cards, rounded paired modules, soft split compositions.	Dual circles, mirrored arcs, paired dots and split borders suggesting comparison
MyHoroscope360.com	Reflective	#20365F / #D6A547	Libre Baskerville	14px cards, 10px controls, broad curves used only in decorative horizon graphics.	Horizon arcs, complete circles and layered translucent blue fields
DailyRashi360.com	Practical	#285047 / #D1A23B	Lora	12-14px radius, friendly rectangles, simple circular Rashi markers.	Earthy circular markers, subtle woven/line patterns and 360 ring as a quiet framing element
DailyHoroscope360.com	Energetic	#2C244D / #E67A3A	Fraunces	16px cards, 12px buttons, rounded forecast chips used only where semantic labels already exist.	Horizon arcs, day-cycle curves and small star nodes
ApkaNakshatra.com	Premium	#111A36 / #C3A15A	Cormorant Garamond	10px cards, 8px buttons, fine borders, low-soft elevation.	27-star lattice, lunar orbit, fine radial geometry and gold keylines
RashiRemedies.com	Reassuring	#244A3B / #D79336	Karma	16px cards, 12px controls, soft organic curves used decoratively.	Protective circles, gentle rising flame lines, woven threads and leaf-like geometry
ApkiKundli.com	Technical	#17233C / #B99A54	Spectral	4-6px radius, square grids, crisp borders, restrained shadow.	Square/diamond chart grids, axis lines, numbered-cell geometry and brass annotation strokes
MatchYourKundli.com	Balanced	#68273A / #C69C55	Playfair Display	18px cards, 12px controls, paired circles/columns as decorative language.	Interlocking circles, mirrored brackets and twin-line geometry
VastuShastra360.in	Architectural	#29383D / #C1A06B	Merriweather	4px cards/buttons, orthogonal panels, crisp borders, minimal elevation.	Orthogonal grid, compass cross, plan line, corner brackets and sandstone textures
ApkiRashi.com	Analytical	#30375D / #C5A253	Literata	10px cards, 8px buttons, moderate borders, compact metadata.	Zodiac-sector stamps, annotation brackets, thin copper rules and small numbered markers
ApkaPandit.in	Reverent	#5B2932 / #C68D36	Tiro Devanagari Hindi	10px cards, 8px controls, modest ornaments and line separators.	Temple arch line, diya flame, kalash contour, rangoli-inspired border fragments used sparingly

DIFFERENTIATION GATE	A reviewer should be able to identify a site from its masthead + palette + typography + card/shape language without reading the domain. If two sites look interchangeable after logos are removed, PDF-26 differentiation has failed.

22.1 Similar-subject differentiation pairs

Pair	Required differentiation
WhatsYourRashi vs ApkiRashi	Discovery-friendly rounded cosmic UI vs technical editorial indigo/copper knowledge-bank treatment.
DailyRashi360 vs DailyHoroscope360	Grounded everyday earth palette vs energetic sunrise/violet forecast cadence.
MyHoroscope360 vs DailyHoroscope360	Reflective forecast-literacy editorial calm vs daily outlook scanability/energy.
ApkiKundli vs MatchYourKundli	Dense technical chart-grid system vs warm balanced paired-comparison system.
JaniyePanchang vs ApkaPandit	Calendrical precision/grid/reference identity vs ritual-procedure/reverent warm identity.
AstroToday360 vs ApkaNakshatra	Modern event-newsroom orbit system vs premium contemplative navy-gold star-lattice system.
VastuShastra360 vs astrology sites	Architectural orthogonal/spatial language; avoid generic cosmic visual dominance.

23. Logo, Favicon and Asset Governance

- DOC-26 freezes identity direction and usage rules, not fabricated claims about pre-existing vector artwork. Each chapter marks logo/favicon direction as recommendation unless an approved asset is separately supplied.
- Final logo assets must be SVG-first with accessible text alternative strategy, plus raster fallbacks as needed. Favicons require a strong silhouette at 16px/32px and may not depend on thin detail.
- No site may import another site's logo, favicon, illustration pack or brand asset directory. Family resemblance is not asset reuse.
- Logos must have light/dark-surface variants only where contrast requires; those variants are still one site identity, not per-page themes.
- No logo may imply a product capability that does not exist, such as a calculator, live clock, matching service, booking marketplace or personal account.

24. Imagery, Motif and Cultural-Treatment Rules

Rule	Requirement
Respect	Religious/ritual imagery must be editorially respectful; deities or sacred symbols are not decorative buttons, error icons or novelty stickers.
Truthfulness	Illustration must not imply real-time astronomical data, guaranteed outcomes, medical treatment or personal calculation where no such feature exists.
No stock-galaxy sameness	Generic neon galaxy imagery cannot be the dominant identity across the estate; imagery follows each chapter.
Diagram clarity	Technical diagrams use labels/captions and sufficient contrast. Decorative background geometry never sits behind dense body text.
Motion	Celestial or orbit motion is optional, subtle and disabled/reduced under reduced-motion preference.
Media contract	All meaningful media continues to use DOC-13/17 public media/alt/caption/credit rules; DOC-26 does not create new media fields.

25. Component Visual Inheritance Rules

DOC-12 component semantics are stable; DOC-26 specifies how their visual personalities may differ. A component name does not imply shared code between sites.

Semantic component family	Allowed site-local differentiation	Not allowed
Shell/Header/Footer	Layout density, logo treatment, background,	Changing destinations/authorization; importing

Semantic component family	Allowed site-local differentiation	Not allowed
	divider/motif, nav active styling	another site shell
Article/Featured cards	Radius, image ratio, typography, borders/shadows, metadata treatment	Reordering authoritative arrays; hiding required data semantics
Taxonomy/Author cards	Shape language, icon framing, accent use	Inventing profile/status fields
Search form/results	Input styling, result card language, empty-state illustration	Blank query becoming all content; new filters not upstream
Article body blocks	Typography, spacing, list/table/quote/code visual styles	New block types, raw HTML, changing block order
Preview/System states	Site-local shell styling and safe illustration	Making Preview indexable/public; leaking deleted/private target metadata

26. Developer Implementation Boundaries

```
// allowed within one site
import Header from "@/site/shell/header/Header"
import ArticleCard from "@/site/components/ArticleCard"
import "@/site/styles/tokens.css"

// prohibited
import OtherSiteCard from "../../site-02-apki-rashi/..."
import PublicTheme from "@bp/shared-public-theme"   // shared visual runtime not approved
```

- Each Next.js public app owns its tokens, CSS, assets and visual components. Shared packages remain limited to contracts, generated API clients and pure utilities already allowed by DOC-14/23.
- Site token values are compiled into that site build only. No runtime tenant/theme switch loads another site's token file.
- Brand asset path, token file and component exports cannot be selected from user-controlled host/site strings without the already-trusted site application boundary.
- PDF-27 can author page-specific composition within each site application but must consume these token/identity rules and preserve DOC-11/12/13 semantics.
- Implementation remains NOT_VERIFIED/EVIDENCE_REQUIRED under DOC-22 until the actual site repositories/builds/QA evidence prove compliance.

27. DOC-01 through DOC-25 Consistency Audit

Authority	Result	DOC-26 compatibility outcome
DOC-01	PASS	14 independent public presentation authorities preserved; no product scope change.
DOC-02	PASS	No permission/role behavior introduced by visual styling.
DOC-03	PASS	No capability/tool/page-builder feature added; domain motifs remain nonfunctional.
DOC-04	PASS	SiteContext/isolation unaffected; visual identity cannot broaden tenant scope.
DOC-05	PASS	Exactly 14 public Page IDs retained; no new page type.
DOC-06	PASS	Central Admin inventory untouched.
DOC-07	PASS	Five Post states/12 ArticleBody blocks unchanged; public block styling only.
DOC-08	PASS	No DB table/column/token persistence added; site tokens are source files.
DOC-09	PASS	Canonical domains/routes preserved; prompt spelling discrepancy resolved in favor of frozen SITE-10 domain.
DOC-10	PASS	Admin flows untouched.
DOC-11	PASS	Public states/actions/responsive meaning preserved.
DOC-12	PASS	Semantic components preserved; visual styling intentionally site-specific.
DOC-13	PASS	PageData fields/order preserved; no visual-only data requirement invented.
DOC-14	PASS	SITE-LOCAL presentation and no cross-site import boundary enforced.
DOC-15 RC7	PASS	HTTP contract unchanged; public clients consume existing operations only.
DOC-16 RC4	PASS	SEO/search/canonical/sitemap behavior untouched by visual treatment.
DOC-17 RC2	PASS	Media delivery/alt/caption/credit/privacy behavior preserved.
DOC-18 RC2	PASS	No frontend Redis/worker dependency added.
DOC-19 RC2	PASS	Preview/security rules preserved; public styling does not expose credentials.
DOC-20 RC1	PASS	Performance/scale requirements not relaxed; identity decoration must stay budget-aware.
DOC-21 RC1	PASS	Accessibility/responsive regression remains release-blocking QA authority.
DOC-22 RC1	PASS	Implementation evidence remains NOT_VERIFIED until runtime proof exists.
DOC-23 RC2	PASS	Next.js mixed-language monorepo unchanged; site visual source remains local.
DOC-24 RC3	PASS	Independent site build/deployment model unchanged.
DOC-25 RC2	PASS	Central Admin visual design remains isolated from public-site identities.

AUDIT RESULT	No genuine blocking contradiction or missing upstream dependency was found for DOC-26 visual scope after applying authority precedence to AUD26-DOM-01. The only prompt/upstream naming mismatch is apnakshatra.com versus frozen SITE-10 ApkaNakshatra.com/host apkanakshatra.com; this document does not change the domain.

28. Traceability

Trace ID	Upstream	DOC-26 visual lock
TR26-001	DOC-01	Independent visual presentation per site.
TR26-002	DOC-02	No visual authorization.
TR26-003	DOC-03	No new feature/tool implication.
TR26-004	DOC-04	Site-local isolation and fail-closed boundary.
TR26-005	DOC-05	14 public Page IDs only.
TR26-006	DOC-06	Admin scope excluded.
TR26-007	DOC-07	Article block/state semantics retained.
TR26-008	DOC-08	No DB/token schema addition.
TR26-009	DOC-09	Canonical domain/route identity retained.
TR26-010	DOC-10	Admin behavior excluded.
TR26-011	DOC-11	Responsive/state semantics retained.
TR26-012	DOC-12	Semantic component visual freedom.
TR26-013	DOC-13	PageData/order accessibility inputs retained.
TR26-014	DOC-14	No cross-site visual/runtime imports.
TR26-015	DOC-15	HTTP contract unchanged.
TR26-016	DOC-16	SEO/search behavior unchanged.
TR26-017	DOC-17	Media visual delivery/alt/caption rules.
TR26-018	DOC-18	No queue/cache frontend coupling.
TR26-019	DOC-19	Preview/security visual boundary.
TR26-020	DOC-20	Performance-aware visual implementation.
TR26-021	DOC-21	WCAG/responsive regression evidence.
TR26-022	DOC-22	Evidence/status governance.
TR26-023	DOC-23	Site-local Next.js folders/tokens.
TR26-024	DOC-24	Independent deployment consumption.
TR26-025	DOC-25	Admin visual system kept separate.

29. Comprehensive Acceptance Criteria

ID	Release-blocking visual assertion
AC26-001	Exactly fourteen initial site identity chapters exist and each maps to one frozen SITE key/canonical domain.
AC26-002	Every site has an independently defined personality, palette, typography, imagery/motif and component language.
AC26-003	No site depends on another site's visual source, tokens, CSS, assets or components.
AC26-004	No shared public visual runtime/theme package is required by DOC-26.
AC26-005	The canonical token naming schema is consistent while values remain site-local.
AC26-006	Each site defines exact primary/secondary/accent/background/surface/text/muted/border/focus colors.
AC26-007	Each site defines exact heading/body font stacks and local fallbacks.
AC26-008	Each site defines card/button radii, section spacing and card shadow/elevation guidance.
AC26-009	Each site logo/favicon direction is clearly labeled as recommendation where exact upstream artwork is absent.
AC26-010	No recommended logo/icon implies a feature not present in DOC-03/05.
AC26-011	DOC-12 semantic component meaning is preserved by every site implementation.
AC26-012	DOC-13 array order is preserved across responsive reflow.
AC26-013	Header/Footer/navigation semantics remain existing same-site data destinations.
AC26-014	No page introduces a new Page ID, calculator, personalized dashboard, live feed, booking flow or generic page builder.
AC26-015	Public visual styling never broadens SiteContext or changes authorization.
AC26-016	Preview remains visually distinct and no-store/private without leaking credentials.
AC26-017	404/410 styling never reveals hidden/deleted target metadata.
AC26-018	Search styling does not alter blank-query or ranking semantics.
AC26-019	SEO/canonical/indexability behavior is unchanged by visual composition.
AC26-020	Media styling exposes only safe public media and respects alt/caption/credit semantics.
AC26-021	Body text, controls and essential metadata meet WCAG 2.2 AA contrast at intended size.
AC26-022	All interactive controls have visible keyboard focus; focus is not removed by reset CSS.
AC26-023	Color is never the sole carrier of meaning or selection.
AC26-024	Reduced-motion preference removes nonessential motion without removing content.
AC26-025	Meaningful images preserve alt/caption rules; decorative motifs are excluded from the accessibility tree.
AC26-026	Responsive layouts preserve route/action/state meaning and do not hide required actions.
AC26-027	No fixed visual decoration causes page-level horizontal overflow at QA narrow widths.

ID	Release-blocking visual assertion
AC26-028	Touch-oriented layouts maintain practical target sizes for primary controls.
AC26-029	Central Admin DOC-25 tokens/components are not imported by public sites.
AC26-030	Public-site palettes do not change the Central Admin theme.
AC26-031	PDF-27 can implement each site without needing to invent missing palette/font/shape/motif direction.
AC26-032	PDF-27 cannot silently overwrite DOC-26 identity decisions.
AC26-033	Build/deployment remains independent per site.
AC26-034	Visual tokens remain source/config assets, not new PostgreSQL fields.
AC26-035	A future site requires a new DOC-26 visual authority entry/revision rather than copying another site by default.
AC26-036	AUD26-DOM-01 preserves frozen SITE-10 canonical domain and does not create an unapproved domain mapping.
AC26-037	Visual recommendation status is not mislabeled as pre-existing approved brand artwork.
AC26-038	All cross-site differentiation pairs pass the non-interchangeability gate.
AC26-039	No technical diagram/motif is used as a false interactive affordance.
AC26-040	No religious/sacred image is used as a destructive/error/novelty UI control.
AC26-041	Implementation status remains NOT_VERIFIED until repository/build/QA evidence exists.
AC26-042	DOC-01 through DOC-25 audit has no unresolved blocking semantic conflict for visual scope.

29.1 Site-specific acceptance matrix

ID	Site-specific release assertion
AC26-S01-01	WhatsYourRashi.in implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S01-02	WhatsYourRashi.in implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S01-03	WhatsYourRashi.in Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S01-04	WhatsYourRashi.in imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S01-05	WhatsYourRashi.in passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S11-01	JaniyePanchang.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S11-02	JaniyePanchang.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S11-03	JaniyePanchang.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S11-04	JaniyePanchang.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S11-05	JaniyePanchang.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S07-01	AstroToday360.com implements its chapter

ID	Site-specific release assertion
	primary/secondary/accent/background/text token values with no silent substitution.
AC26-S07-02	AstroToday360.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S07-03	AstroToday360.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S07-04	AstroToday360.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S07-05	AstroToday360.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S04-01	ZodiacDaily.in implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S04-02	ZodiacDaily.in implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S04-03	ZodiacDaily.in Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S04-04	ZodiacDaily.in imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S04-05	ZodiacDaily.in passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S06-01	MyHoroscope360.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S06-02	MyHoroscope360.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S06-03	MyHoroscope360.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S06-04	MyHoroscope360.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S06-05	MyHoroscope360.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S03-01	DailyRashi360.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S03-02	DailyRashi360.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S03-03	DailyRashi360.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S03-04	DailyRashi360.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S03-05	DailyRashi360.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S05-01	DailyHoroscope360.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S05-02	DailyHoroscope360.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S05-03	DailyHoroscope360.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S05-04	DailyHoroscope360.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S05-05	DailyHoroscope360.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.

BLOG-DOC-26 | 14-SITE VISUAL IDENTITY, DESIGN TOKEN & SITE-LOCAL UI AUTHORITY

ID	Site-specific release assertion
AC26-S10-01	ApkaNakshatra.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S10-02	ApkaNakshatra.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S10-03	ApkaNakshatra.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.

AC26-S14-04	VastuShastra360.in imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S14-05	VastuShastra360.in passes keyboard/focus/contrast/reduced-motion/responsive

ID	Site-specific release assertion
	checks with site-local styling enabled.
AC26-S02-01	ApkiRashi.com implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S02-02	ApkiRashi.com implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S02-03	ApkiRashi.com Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S02-04	ApkiRashi.com imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S02-05	ApkiRashi.com passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.
AC26-S13-01	ApkaPandit.in implements its chapter primary/secondary/accent/background/text token values with no silent substitution.
AC26-S13-02	ApkaPandit.in implements its heading/body font direction and shape/density language without importing another site theme.
AC26-S13-03	ApkaPandit.in Header/Footer/cards/buttons/forms visibly match its chapter identity while preserving DOC-12 semantics.
AC26-S13-04	ApkaPandit.in imagery/motif treatment follows its chapter and does not imply a new feature/tool/service.
AC26-S13-05	ApkaPandit.in passes keyboard/focus/contrast/reduced-motion/responsive checks with site-local styling enabled.

ACCEPTANCE COUNT	42 global AC26 assertions + 70 site-specific assertions = 112 release-blocking visual acceptance assertions. PDF-27/QA21 evidence must prove the applicable implementation; this PDF itself is not implementation evidence.

30. Freeze-Readiness Checklist

Freeze ID	Required condition
FZ26-01	14 chapter-to-SITE/domain mappings accepted.
FZ26-02	AUD26-DOM-01 canonical-domain handling accepted.
FZ26-03	Cross-site non-interchangeability doctrine accepted.
FZ26-04	Shared token-name/site-local-value model accepted.
FZ26-05	No shared public visual runtime/import policy accepted.
FZ26-06	WhatsYourRashi identity accepted.
FZ26-07	JaniyePanchang identity accepted.
FZ26-08	AstroToday360 identity accepted.
FZ26-09	ZodiacDaily identity accepted.
FZ26-10	MyHoroscope360 identity accepted.
FZ26-11	DailyRashi360 identity accepted.
FZ26-12	DailyHoroscope360 identity accepted.
FZ26-13	ApkaNakshatra identity accepted.
FZ26-14	RashiRemedies identity accepted.
FZ26-15	ApkiKundli identity accepted.
FZ26-16	MatchYourKundli identity accepted.

Freeze ID	Required condition
FZ26-17	VastuShastra360 identity accepted.
FZ26-18	ApkiRashi identity accepted.
FZ26-19	ApkaPandit identity accepted.
FZ26-20	Logo/favicon recommendations and asset-truth rule accepted.
FZ26-21	WCAG 2.2 AA, keyboard/focus/reduced-motion rules accepted.
FZ26-22	PDF-27 downstream boundary accepted.
FZ26-23	DOC-01..25 audit has zero unresolved blocker for visual scope.
FZ26-24	112 AC26 acceptance assertions accepted as the DOC-26 release baseline.
FZ26-25	Implementation remains NOT_VERIFIED/EVIDENCE_REQUIRED until actual site builds and QA evidence are supplied.

REVIEW STATUS	BLOG-DOC-26 v1.0-RC1 is a complete public visual-identity review candidate. Formal freeze requires explicit project approval. Exact logo/favicon artwork remains recommendation-level until approved asset files are supplied or the identity direction is accepted as the basis for asset creation.

Appendix A - Canonical Token-Schema Reference

```
:root {
  --color-brand-primary: <site value>;
  --color-brand-secondary: <site value>;
  --color-accent: <site value>;
  --color-background: <site value>;
  --color-surface: <site value>;
  --color-text: <site value>;
  --color-text-muted: <site value>;
  --color-border: <site value>;
  --color-focus: <site value>;
  --font-heading: <site font stack>;
  --font-body: <site font stack>;
  --radius-card: <site value>;
  --radius-button: <site value>;
  --space-section: <site value>;
  --shadow-card: <site value>;
}
```

Implementation may add derived aliases such as --color-link, --color-card-bg, --space-page-gutter or --article-measure inside one site, but those aliases must derive from this chapter and remain local. A derived token cannot become a cross-site shared theme package.

TOKEN LOCK	This digest is a quick reference only. Each site chapter is authoritative for the complete palette roles, typography, component treatment, responsive/accessibility behavior and do/don't rules.

Appendix C - One-Page Developer Execution Reference

Area	Locked answer
AUTHORITY	DOC-26 owns public visual identity/tokens only; DOC-12/13 own semantics/data, DOC-23 owns code boundaries, DOC-25 Admin visuals, PDF-27 final mockups.
APPS	14 independent Next.js public applications; every site owns its own shell, pages, components, CSS/tokens and assets.
NO SHARED THEME	No shared public UI/theme/Header/Footer/cards/buttons CSS runtime and no site-to-site imports.
TOKENS	Use the canonical token names but store values in each site application. No runtime tenant theme switching.
ORDER	Responsive CSS must preserve PageData/component semantic order.
A11Y	WCAG 2.2 AA, visible focus, keyboard usability, non-color-only meaning, reduced motion and safe meaningful-media semantics.
ASSETS	Logo/favicon directions are recommendations unless actual approved assets exist; never fabricate approval.
DOMAIN NOTE	SITE-10 canonical is ApkaNakshatra.com / apkanakshatra.com. The prompt label apnakshatra.com is not treated as a domain change.
PDF-27	Final page mockups/wireframes consume DOC-26; they may arrange semantic components differently per site but cannot silently replace the identity baseline.
STATUS	Specification mapped. Runtime implementation/QA remains NOT_VERIFIED / EVIDENCE_REQUIRED until evidence is supplied.
